Interpretative phenomenological analysis - Wikipedia Interpretative phenomenological analysis (IPA) is an approach to psychological qualitative research with an idiographic focus, which means that it aims to offer insights into how a given person, in a given context, makes sense of a given phenomenon. Usually these phenomena relate to experiences of some personal significance, such as a major life event, or the development of an important relationship. Phenomenological Interpretations of Ancient Thought ... The phenomenological tradition has had a profound impact on the way ancient philosophy is understood, both within academic philosophy and in Western culture as such. Still, very few systematic explorations of this way of approaching ancient philosophy exist. Phenomenological Interpretation of Descartes their own methodologies in Phenomenology, their works are determined by a critique of Descartes' ideas. By exploring their critiques and showing how Phenomenology itself arises out of Descartes' Meditations I, an alternative interpretation of Descartes will come to light; one that is different from the one that has shaped Modernity.

Phenomenology (philosophy) - Wikipedia For Husserl, the phenomenological reduction is the method of leading phenomenological vision from the natural attitude of the human being whose life is involved in the world of things and persons back to the transcendental life of consciousness and its noetic-noematic experiences, in which objects are constituted as correlates of consciousness.
